I. PARTICULARS OF ORGANIZATION, FUNCTIONS AND DUTIES

ORGANIZATION:

This Wing of the Highways Department of Government of Tamil Nadu caters to the needs in respect of Investigation and Designs of various bridge Projects taken up by the Government of Tamil Nadu every year for implementation.

This Wing functions under the head of one exclusive Chief Engineer. The organisational structure of this Wing comprises of two sub Wings, namely Designs Wing which takes care of designing and estimating of bridge Projects and Investigation Wing which takes care of the Investigation part of the Projects.

The Designs Wing functions with Six Designs Divisions at Chennai.

The Investigation Wing with Seven Investigation Divisions stationed at different locations spread over the entire State. To oversee the functioning of the Investigation Divisions, a Investigation Circle headed by a Superintending Engineer is stationed at Trichy.

The range of services includes design of river bridges and grade separators especially Road over Bridges and Road under Bridges. With the accumulated expertise, this wing also does the role of solution provider for complicated cases of bridge failures / rehabilitation. It renders Design services for different projects under PART II SCHEME with the state fund, Central Road fund and external aided projects like NABARD, HUDCO, World Bank etc.,

It also provides for the services of scrutiny of alternative designs presented by Private Consultants, scrutiny of design in the Prequalification stages and approval of detailed design at the post tender stages. In addition to the above services, this Wing also provides solution for bridge failures and technical problems encountered during construction of bridges.

In the Investigation wing, Engineers carryout field Investigation and sub soil exploration and furnish field data to the Designs wing for the formulation of bridge proposals.

From this cue, the Designs Wing takes over to provide the structural design in accordance with the IRC codes and other relevant standards specified by the Ministry of Road Transport and Highways, Government of India. All the Design works are performed using Computers with related software.

After the design is completed, this Wing prepares the required structural drawings and quantity estimates of the projects and sends the same to respective execution Wings to float tenders.
